Proven Performance Made Stronger - AirBoss Series Self Contained Breathing Apparatus
Approved to: NFPA 1981, 2007 edition

The AirBoss SCBA Series has been approved to the most challenging standard in the world, NFPA 1981, 2007 edition. The AirBoss Series has been hardened to meet the conditions and environments that face fire fighters everyday. Available in both the one piece, Evolution backplate as well as the PSS100 multi-position backplate, the series utilizes the well proven AirBoss pneumatic system. Complete with RIC coupling and hardened heads up display, the AirBoss series offers a mechanical gauge with the option of an integrated PASS device. The optional PASS is located on the hip providing a loud 95 dB warning when required. The Panorama Nova facepiece offers superior fit with 3 sealing edges and 2 sealing surfaces. The Panorama Nova facepiece is available in three sizes. The AirBoss Series of SCBA comes standard with the CBRN second stage regulator. The AirBoss Series offers the highest protection in all harsh environments. The optional BAcomm is a voice amplifier and radio interface communication system. Other accessories that are available include a hairnet, 20" or 40" Multi-Link auxiliary airline attachment, spectacle kits, carry case and duffle bag.

Features

- PSS100's fully adjustable 3-position ergonomic backplate and harness suspension system
- Lightweight, robust carbon composite back plate on both models
- Fail-safe first stage reducer
- LDV Plus delivers >550 l/m
- Easy to use doffing switch on LDV
