

## RIT LifeGuard

### Rapid Intervention Team Emergency Air Supply

Today's fire rescue techniques require highly trained Rapid Intervention Teams to rescue victims or downed firefighters. When air supplies are critical Draeger's RIT LifeGuard Emergency Air Supply System supplies 30, 45, or 60-minutes of air for immediate rescue. The RIT LifeGuard is lightweight, portable and uses a fire resistant bag. To protect the cylinder from damage, the bag is padded along its length. Large, deep pockets provide convenient storage for a facepiece, second stage regulators, door wedges and other tools needed for extraction and rescue. "D" rings located along the top and bottom of the LifeGuard bag provide an attachment point for an additional rope storage bag, while the carry handle expands into a shoulder strap for hands free carrying. A 3-foot airline hose is provided for easy attachment to a downed fire fighter/victim.

Features:

- ◆ Accommodates 30, 45 or 60-minute cylinders
- ◆ Heavy duty Cordura fire resistant protective bag
- ◆ Large storage pockets
- ◆ "D" rings for extra rope bag
- ◆ Padded bag to protect cylinder
- ◆ Easy to clean
- ◆ Versatile CEJN airline connector

## Technical Data

<b>Weight:</b>	4.6 pounds (without cylinder)
<b>Cylinders:</b>	4500 psi 30-minute Full Composite 4500 psi 45-minute Full Composite 4500 psi 30-minute Carbon Composite 4500 psi 45-minute Carbon Composite 4500 psi 60-minute Carbon Composite
<b>Airline Connection:</b>	CEJN Female Coupling
<b>1st Stage Reducer:</b>	Flow rate 1000 L / minute
<b>Number of Pockets:</b>	2

## Ordering Information

<u>Description</u>	<u>Part Number</u>
RIT LifeGuard (without cylinder)	4056460
4500 psi 60 minute Carbon Composite Cylinder	4055699
Lung Demand Valve	3338712
RIT LifeGuard Bag only	4056459
