

Handy Pak

The Handy Pak is ideal for use in confined space, Haz Mat response, tank entry and cleaning, sewer maintenance and chemical handling operations among other applications. It can serve as a primary air source by using cylinders for breathable air, or when using an external high pressure source (e.g. a compressor), the cylinders can provide air for emergency egress.

Any SCBA type cylinder can be used with the Handy Pak. The CGA 347 fitting which is standard and permits use of either low or high pressure cylinders (up to 4500 psi).

The Handy Pak features an adjustable regulator, 4 quick connect outlets and a low pressure alarm whistle. When using 2 cylinders, both can be opened for simultaneous use, or only one can be operational allowing for changeout of the second cylinder.

Handy Pak is lightweight and designed for portability. It can easily be carried via hand to the worksite to provide breathable air in a confined space or hazardous environment. Or it can be wall mounted with an optional bracket.

Technical Data

Weight:	26 pounds (without cylinders)
Dimensions:	29.5"L x 21"W x 6.5"D
Frame Material:	Powder coated aluminum
Regulator:	0 – 5000 psi incoming, 0 – 125 psi outgoing
Socket:	Hansen Brass (other available upon request)
Relief Valve:	125 psi ASME preset
Warning Alarm:	Pneumatic whistle set at approximately 500 psi
Flow Rate:	80 cfm (2260 lpm) @ 120 psi

Order Information

Part Number

Handy Pak	4053879
Aluminum 2216 psi 30 minute Cylinder	4054856
Carbon 4500 psi 60 minute Cylinder	4055699
