

SPECIFICATIONS

Product Description: **CO ALARM**
Part Number: **9871-01**
Style: **REMOTE**

GENERAL DESCRIPTION:

The Allegro Industries “Remote CO Alarm/ Strobe Light System” is designed and built to be an additional means of warning users when using an Allegro Filtration Panel where the Carbon Monoxide level has exceeded 10 PPM. This remote alarm system can be connected up to the filtration panel by means of a 50’ cable that plugs into the filtration panel. This allows the user to keep the CO Alarm closer to their working areas assuring them of being warned if the CO levels exceed 10 PPM. The alarm consists of both a loud 90 decibel audio alarm and a highly visible red strobe light.

CONSTRUCTION:

- Housed in a portable, rugged Pelican case
- Handle for easy portability
- Latches for protection and Security
- Assembled with a yellow powder coated cage to protect strobe light

ALARM:

- 90 Decibel Audio Alarm
- High visibility strobe light
- UL Approved

POWER SOURCE:

- 9V DC Alkaline Battery (2ea.)

CORD:

- 50’ Length
- 18/2 AWG SJOW, 300V, Water Resistant

* Shown with Allegro Filter Panel (Not Included)

DIMENSIONS:

Height	Length	Width	Weight
10 ½”	9 ¼”	7 ½”	4 Lbs.
